

Hydrosolv - 150

1 - Introduction : Hydrosolv - 150, is a mixture of aromatic hydrocarbons, composed primarily of (C10 – C11) alkylbenzenes.

2 - Applications : Hydrosolv-150, is used as a solvent for preparation of pesticide formulations, paint & resin industries.

3 - Specifications :

PROPERTIES	MIN.	MAX.	TEST METHOD
1 – Specific gravity at 15 oC g / ml	0.887	0.897	ASTM D - 4052
2 – Initial Boiling Point oC	179	186	ASTM D - 86
3 – 50 % oC	197	199	
4 – Dry Point oC	203	209	
5 - Color (Sybolt)	+25	+25	ASTM D - 156
6 - Aromatic Content W%	97	99	ASTM D - 1319
7 - Flash Point (PMCC) oC	62	66	ASTM D - 93
